

Rotavator R310-R320

# Rotavator R310-R320

A complete range of Rotavators  
for compact tractors  
R310 with chain side drive and  
R320 with gear side drive

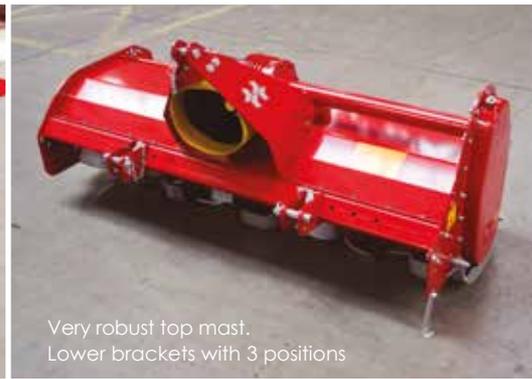

# Howard Rotavator R310-R320

New geometry gives trailing board increased efficiency.

All guards are integrated. Side adjustment of the trailing board

Very robust top mast. Lower brackets with 3 positions

The new range of R310 / R320 Rotavators is a perfect match for all types of compact and specialist tractors up to 45 HP. The robust design integrates all guards, avoiding extra parts. Due to the very smooth flow of soil inside the machine, the end result is an effective tillage. The special design of the frame and trailing board helps to give a perfect finish, with a highly effective crumbling and leveling effect.

The range is available in 2 versions: R310, with chain side drive, and R320 with gear side drive, specially designed for intensive use. The depth control skids are integrated under the side plates, offering a good protection against wear on the side plates.

User Friendly:  
The design philosophy has been centred around making the operation and adjustment of the machine as easy as possible.

## Technical Data

Model	Working width m	Transport width m	Rotor Speed	Weight kg	Number of blades	Tractor hp
<b>Chain side drive</b>						
R310-090	0.90	1.05	232	161	21	15-40
R310-100	1.00	1.15	232	168	24	15-40
R310-115	1.15	1.30	232	175	27	20-40
R310-125	1.25	1.40	232	182	30	25-40
R310-140	1.40	1.55	232	189	33	25-40
R310-150	1.50	1.65	232	196	36	30-40
<b>Gear Side Drive</b>						
R320-090	0.90	1.05	232	175	21	15-45
R320-100	1.00	1.15	232	182	24	15-45
R320-115	1.15	1.30	232	189	27	20-45
R320-125	1.25	1.40	232	196	30	25-45
R320-140	1.40	1.55	232	203	33	25-45
R320-150	1.50	1.65	232	210	36	30-45
